

# KQXXX 45600

Taste an incomparable flavour of which even the finest barista would be proud. The multifunctional coffee machine comes with its own coffee grinder with seven different settings from ultra-fine to coarse; a multipurpose steam function for heating milk or water for tea, an anti-limescale programme that tells you when the machine needs cleaning, and a fully-automatic cappuccino function that pours just the right amount of milk directly from the jug so you can enjoy a creamy cappuccino, latte macchiato or caffè latte whenever you wish. Compatible in a gallery installation with 60 cm ovens and 45 cm microwave with the 14 cm warming drawer. Or simply add the 14 cm warming drawer underneath the espresso machine. All combinations are possible.
