

FREESTANDING HEATPUMP DRYER WDH 092C 25 SBMJ

Heatpump

OUTSTANDING ENERGY EFFICIENCY

By using a heat pump rather than a conventional heating element, you can achieve the same drying results at lower temperatures: 40°C on average, rather than 60°C

Aquawave

WAVE-LIKE DRUM ACTION FOR GENTLER TREATMENT

Washing might take its toll on your clothes. So, here is AquaWave system's curved door glass and specially designed paddles that move the laundry in a wave-like action inside the drum, treating clothes gentler and improving the washing performance. Next time someone compliments your clothes and you reply, 'What, this old thing?' you might be telling the truth.
